Update on First Mesa Erosion and Polacca Wash Flooding

By: Wilber Kaye, Staff Assistant
First Mesa Consolidated Villages

First Mesa Consolidated Villages (FMCV) is still in the process of identifying resources for geological studies of the mesa and the Polacca Wash. The floods of 2022 demonstrated the need for a study of the root cause of the sediment buildup in the wash.

FMCV has attempted to meet with the entities involved since the Executive Order dated August 17, 2022, was implemented. FMCV has been denied access to the ongoing plans and has been excluded from all meetings related to the flooding. The result of those meetings, the HESCO solution, was marginal at best. See YouTube video: <https://youtu.be/Fxb5Mp25Mdc>

Most residents in the area refused the barriers and some that were put up have already been taken down. There has been no public meetings and stakeholders have not been contacted for "future endeavors." FMCV would like to pick up where the work left off for a complete and comprehensive study of the environmental impacts; short-term and long-term, and mitigation; short-term and long-term.

FMCV has sought to identify the services the Hopi Tribe offers, specifically from the Department of Natural Resources (DNR). The departments within DNR are PL93-638 contracted departments which should have specific roles

of function, personnel, and scientific experts. The Hopi Tribe Government Organizational Chart and Policy Statement, Page 12, states, "6. **Department of Natural Resources** - The Department of Natural Resources provides environmental stewardship through responsible management and development of the natural, cultural, and biological resources of Hopitutskwa for the benefit of current and future generations of the Hopi/Tewa Senom. The primary function is to provide technical assistance, training and direct services to land users, villages, communities, schools, other tribal departments and programs and to coordinate, cooperate and collaborate on natural resources, cultural resources, environmental projects and issues that are of mutual benefit." (2015)

Unfortunately, the Hopi Tribe DNR does not have expert professionals to provide technical assistance or perform the comprehensive studies needed to develop a feasibility plan. This applies to both the Polacca Wash and First Mesa erosion. We are continuing to seek additional resources and are confident we will obtain assistance in achieving our goals. Please refer to the Winslow Levee Project. These tasks are comparable in scope, time, and funding. https://www.winslowaz.gov/news_detail/T6_R54.php

Former Navajo Nation President Peterson Zah Dead at the Age of 85

Remembering Peterson Zah, former Chairman and President of Navajo Nation

Louella N. Furcap, the Village Crier Editor
First Mesa Consolidated Villages

Peterson Zah, who was the last elected Chairman of the Navajo Tribal Council elected in 1982 and the first elected President of the Navajo Nation in 1990 after the tribe reorganized its government, died on Tuesday, March 8 at the Tsehootsoi Medical Center in Ft. Defiance, Arizona after a lengthy illness.

Zah was born in 1937 in Keams Canyon, Arizona. He attended the local elementary schools, the Phoenix Indian School and later Phoenix College and ASU.

After serving his presidency for the Navajo Nation, Zah went to work at Arizona State University, serving as Advisor to the ASU President and assisting and advocating for Native American students.

During his time as Navajo President, he worked in conjunction with former Hopi Tribal Chairman Ivan L Sidney, Sr. who also served as Advisor to the NAU President. Zah and Sidney were close friends and became adopted brothers.

Sidney was one of the speakers at Zah's funeral services held in Window Rock, AZ on Saturday, March 11. His burial services were held in Low Mountain, AZ earlier in the morning.

Water Operations Update and Status Report of Pending Agreement with the Hopi Utility Corporation

By: Ivan L. Sidney, Village Administrator
First Mesa Consolidated Villages

The following is the status of our pending agreement with the Hopi Utility Authority after completing the Hopi Arsenic Mitigation Project (HAMP) construction and establishing the cost rate for water. This water meets the federal arsenic laws relating to public water safety for human consumption.

The Hopi Tribe received an EPA federal grant for the construction but was not disclosed to the village was an additional loan required for completion of the project. At the onset of this project, our leaders did not support a loan to be added to the water payments by village customers. This loan payment estimate was included at a cost of \$90.00 per month, per household. Also, HUC required the term of the agreement for 40 years to pay off the loan and included the budget required for its operations. No meetings have been held recently to continue these discussions.

First Mesa ownership of village lands is protected by its self-government and the Constitution and By-laws of the Hopi Tribe. A major violation occurred when the Hopi Tribal Council accepted the recommendation of its Assistant General Counsel giving approval for use of First Mesa lands.

This approval is unacceptable to our traditional leadership which is an infraction of its religious authority and responsibility as designated stewards of village land by the creator. This creates a precedent that the Hopi Tribal Council has now assumed authority of all Hopi Village Lands. The action of the Tribal Council must be correct-

ed to have the terms of the agreement legally considered. In other words, the acceptance of the agreement is held hostage by the gross violation of the Hopi Tribal Council. Hopi Lands will always remain sacred, and its violations are unacceptable having future personal consequences.

In the meantime, our water operations were in hopes that water consumption by customers would be according to the newly installed water meters. This would allow each household to know how many gallons are used and the possible costs could also be estimated. Training was requested in early December 2022 but the company to provide the training was not available. They are now ready to schedule this training for our water program staff, with an additional cost to FMCV. A company will compute the monthly meter readings and immediately provide billing statements to customers for payment.

Whenever rates required by the Hopi Utility Corporation are accepted, it will be a higher amount and FMCV will be billed the amount of gallons placed in our storage tanks for distribution to customers. The years of unpaid water payment by our customers has resulted in large amounts of delinquent payments. These delinquencies can no longer be allowed to provide payments to the HUC billings. If customers are unable to pay at the current rate of \$35 per month, it is possible some households will be unable to afford the new rates.

According to proper business practices, water may not be allowable to customers

with bad credit history. This is a standard business practice by current businesses, such as: APS, HTI, Cellular companies, Banks, Propane companies, etc.

The cost for water on the mesa must also be determined since no meters were placed at the homes. The higher cost to deliver water to the higher elevation requires pressurization of lines to deliver water. For years we have reported to our community that FMCV solely subsidizes the insufficient water cost budget.

The Water Program has been offered to the three villages with no takers to date. The Water Program was recently offered to HUC and they would not reply. Complaining is far easier than taking over the 24/7 operations that are costly and heavily regulated by EPA laws.

Our commitment to our traditional leaders will continue to strive for improvements to streamline the current operations under strict business operations policies and practices.

A long-time employee, Ms. Sharon Grover, left our office two years ago and was recently re-hired to assist with our improvement plans. She will focus on the immediate training of our meter system and will provide updated information to our delinquent customers. This will allow us to eliminate the delinquent payment accounting record before the implementation of our proposed new rates. As stated earlier, non-payments will no longer be an acceptable business practice.

Hopi Tribal Council February 2023 Report

By: Councilman Wallace Youvella, Jr.
Representing the First Mesa Consolidated Villages

Hopi Tribal Council:

- Due to many villages re-engaging in ceremonies, Hopi Tribal Council was recessed for the month of February with the exception of Feb. 21 & 22.
- Two Action Items were introduced and passed, they are:
 - ◊ AI #027-2023– To approve resolution to Northern Arizona Council of Governments – assistance with funding for two projects, HIR 2(12) Kachina Point Rd and HIR 500 (1) Hotevilla/Bacavi streets.
 - ◊ AI #029-2023– Resolution authorizing Hopi Utility Corporation to apply for the U.S. Dept. of Energy Powering Unelectrified Tribal Building(s) – 2022 grant, in order to fund a solar and battery storage micro grid at the Side Rock well site.

Investment Oversight Standing Committee (IOSC):

- Did not meet in the month of Feb., however the subcommittees of the IOSC did continue to meet.
- The subcommittee tasked with assisting the Moenkopi Developers Corporation (MDC) completed their task, in the Hopi Tribal Council (HTC) directed sixty (60) days. A proposal developed by MDC, with recommendations by the subcommittee, is prepared to make a presentation to the Hopi Tribal Council in March. It is appreciated that the MDC group and subcommittee allowed for various meetings each week. These discussions are due to MDC requesting a restructure of the loan afforded to MDC by the Hopi Tribe.
- The subcommittee tasked with working on a Management Agreement with the Hopi Tribe Economic Development Corporation is prepared to present a proposal to the Hopi Tribal Council. The proposal is in the form of an Action Item/Resolution. The proposed Management Agreement is a short term

agreement of three (3) years.

- The Team working on the Basalt Rebar Manufacturing proposal continued meetings during February and hopes to make a presentation in April. Negotiations regarding liability and finances are progressing, albeit, at a pace slower than anticipated.
- The IOSC is still on the HTC agenda to present a Draft Investment Policy for approval consideration in March.

Transportation Task Team:

- February's meeting was canceled due to the Transportation Team attending a two-day Hopi/Navajo Partnership meeting in Moencopi. Attendees included representatives from the Hopi Tribe, Navajo Nation and the Bureau of Indian Affairs.
- The Hopi/Navajo Partnership meeting entailed discussion on various roadways that lay on the border between the Hopi and Navajo Nations. Points of discussion included:
 - ◊ Right of Way
 - ◊ Maintenance
 - ◊ Funding
 - ◊ New Construction
 - ◊ Public Input
 - ◊ Road Closures and possible re-routing of certain roads.
 - ◊ Etc.
- Northern Arizona Council of Government TSC meeting
 - ◊ NACOG area, which is basically Northern Arizona, has about 3 times more vehicle crashes than the Arizona average. This is due mostly to rural road travel, inclement weather, etc.
 - ◊ In rural areas, it is advised that the best way to boost seat belt use is through education, especially in rural areas.

- ◊ Due to a possible looming recession, Arizona Transportation funding is expected to decline in the next few years.
- ◊ The Hopi Tribe, through Arizona HB2543 sponsored by Az. State Rep. Dunn (R), was able to include funding for the Kachina Point Rd., HIR 2 and Hotevilla/Bacavi Streets (500). In the next few years, more funding will be aggressively sought for Hopi roadways via the State.
- Hopi Dept. of Transportation/Arizona Dept. of Transportation Partnership meeting
 - ◊ Chip Seal project from State Hwy 87 to Polacca is expected to begin weather permitting.
 - ◊ A highway Life Extension project on State Hwy 264, from the Oraibi Bridge to the Coconino County Line (mile markers 359.5 to 373.5) is expected to start weather permitting.
 - ◊ The Lighting project, on State Hwy 264, at the Hopi Cultural Center was halted earlier but is expected to resume in the next few months.
 - ◊ Construction at the Teas Toh Bridge, on State Hwy 87, is set to begin in March.
 - ◊ A sewer leak concern in Polacca at mile marker 391.6 is being addressed as it concerns ADOT. Mr. Ed. Wilson is communicating with Jacob Hess in how ADOT needs to assist.
 - ◊ Rep. Raymond Namoki who also sits on the Hopi Law and Order Committee will address the need for crash data to be shared with ADOT. This will increase the availability of funds and also address problem areas of State Highways on the Hopi Nation.
 - ◊ HDOT is requesting a Partnership Summit on Hopi.
 - ◊ HIR-60 is to be added to the NACOG list for future funding.

Gaming Committee:

No quorum was attained.

In re: Hopi Reservation HSR, Contested Case No. CV6417-203

In re Hopi Reservation HSR, Contested Case No. CV6417-203.

Closing arguments in the Hopi Tribe's future water use trial were held on September 30 and October 1, 2021. Shortly after, the parties in the Navajo Nation's contested case stipulated that the Navajo Nation should be decreed 3,000 acre-feet per year of water for livestock and wildlife consumption on the Little Colorado River Basin portion of the Navajo Reservation. The Hopi Tribe conditioned its approval of the Navajo stipulation on receiving similar treatment. The parties agreed that Hopi should be decreed 824 acre-feet per year of water for livestock and wildlife on the Hopi Reservation. The Special Master approved both stipulations on March 30, 2022.

On May 25, 2022, the Special Master issued her Final Report and Recommended Decree for the Hopi Reservation and the Allotments. All active parties in Hopi's contested case, except for the Salt River Project, filed objections to the Final Report and Recommended Decree in November 2022. Both the Hopi and United States objections were each over 300 pages. Responses to objections are due in March 2023. At that point, the Final Report and Recommended Decree, along with the objections and responses filed by the active parties, will go to the Water Judge. The Water Judge will review the Final Report and objections thereto, and can either accept, reject, modify, or send issues back to the Special Master for further review and reconsideration.

In re Navajo Nation, Contested Case No. CV6417-300.

The parties are currently litigating Phase I of the Navajo Nation's contested case, which encompasses past, present, and future water uses for DCMI (domestic, commercial, municipal, and light industrial water uses), livestock, and stock ponds and impoundments on the LCR Basin portion of the Navajo Reservation. The parties have been conducting extensive discovery since late 2021. In 2022, the parties deposed over 70 lay and expert witnesses, involving over 450 exhibits, more than 50 of which are substantial expert reports. Discovery has also included multiple substantive legal motions, most involving oral argument before the Special Master. After pretrial motions are filed and resolved in early 2023, the trial on the Navajo Nation's Phase I claims is set to begin in April 2023. It is expected to last several weeks.

Settlement Efforts.

The COVID pandemic, the Navajo election, and the Colorado River crisis combined to inhibit and distract from settlement efforts in 2022. The Hopi Tribe's water settlement requirements have not changed since the Tribal Council's Water/Energy Committee reported to the Hopi Sinom via public meetings

in 2019 and a KUYI Forum in 2020, namely:

- Sufficient wet water to make the Hopi Reservation the permanent and economically prosperous homeland that Hopi is entitled to as a matter of federal law.
- Preservation and protection of the N Aquifer as a long-term water source for Hopi.
- Protection of culturally important springs.
- Prompt action to address Hopi's immediate water needs.
- A fair share of available Colorado River water for Hopi, including high priority Colorado River water made available by the closure of NGS.
- A fair share of C Aquifer water.
- The right for Hopi to cross Navajo land as necessary to bring off-Reservation water and infrastructure to Hopi, without the need for Hopi to pay Navajo for a right of way.
- Enough money from the United States to:
 - ◊ replace and upgrade Village water systems and infrastructure,
 - ◊ develop N Aquifer wells and pipelines to ensure that Moenkopi and First, Second, and Third Mesas have access to high quality, reliable water supply equivalent to that enjoyed by non-Indian Arizonans in metropolitan areas and in neighboring communities,
 - ◊ build a pipeline from the Colorado River or other off-Reservation sources of water to Hopi,
 - ◊ develop new D Aquifer wells to increase water for livestock and other needs, and
 - ◊ develop new water infrastructure for traditional and modern agriculture.
- Completion of the State land acquisition promised Hopi in the 1996 Settlement Act.

Other Important Updates.

Special Master Susan Ward Harris has been the judicial officer adjudicating the Hopi Tribe's water claims since the trial on Hopi's past and present water uses in 2018. Special Master Harris is retiring soon. The Water Judge will appoint her successor. When Special Master Harris retires, the new Special Master will adjudicate the Navajo Nation's contested case.

The current Water Judge, Maricopa County Superior Court Judge Mark Brain, is also rotating off of his duties as the Water Judge. The Arizona Supreme Court has appointed Maricopa County Superior Court Judge Scott Blaney to replace Judge Brain.

LAND COMMISSION FEBRUARY MEETING

By: Councilman Dale Sinquah

Representing the First Mesa Consolidated Villages

OLD BUSINESS:

- a. Status update on Upper Village of Moenkopi's request for land assignments Priscilla Pavatea/Edison Tu'tsi**
- MS P. Pavatea discussed the Special Land use application and LC member commented on drive thru survey they conducted with the Moenkopi Reps and Governor.
 - Discussion between DNR, LC, and IHS on several IHS water projects in Pasture Canyon. DNR Director Dr. Joseph commented there are some flood prone areas which DNR will proceed to identify and designate the areas which will affect use. She also put forth the concept of Co-Management of Pasture Canyon area due to its uniqueness.
 - Land Commission, Water Energy Committee, Indian Health Services, Department of Natural Resources, Office of General Counsel, Daniel B. Stephens & Associates, and Hopi Utilities will conduct a meeting March 16, 2023 at Upper Moenkopi Village Community Center concerning Side Rock Project, along with IHS projects, HUC's proposed micro grid grant, and Special land use application.
- b. Status update on well projects on Hopi Lands -Dale Sinquah/DNR/Chris Wolf/Thayne Lowe/Fred Lomayesva**
- Chris Wolf reported that work has been delayed by about a month and well completion is targeted to happen April 2023. Delay is due to weather where equipment is being moved from California to Hopi New Lands.
 - DNR departments commented their work is mostly complete and the remainder should make time line to complete the work.
 - Reality verified if Resolution was passed for the wells and it was verified.
 - Mr. C. Wolf is in the process of finishing contracts for drillers & earth work contractors. The contractors are currently working with TERO and Rev Commission memo or letter to TIPO Director needs to be written.
 - Target date is end of March. Presently Chris W. is working with procurement and other depts. All clearances have been completed. CPO waiting on Prosperity well site road and area need to be surveyed, once roads have dried enough for travel.
 - Mr. Thayne Lowe mentioned earth work needs to be completed on the road leading to Prosperity drill site. Drill pad need to done early March for Sunshine and Bluebird wells this will give crew time for Prosperity well. 3-4 weeks at each well.
 - Special Land Use Assignment has been approved by AI 025-2023 on Jan 25, 2023. Moves onto Community Planning for construction permit.
- c. Update on Land Commission's thoughts on a Resolution done in Hopi language presented to Land Commission by**

Daryn Melvin & Troy Honanie– Land Commission

- LC advised the group to arrange a time certain with Tribal Secretary to insure all their parties who will co-present are available. The group acknowledged that they would.
- LC previously met and discussed the Action Item/Resolution and heard the recording and directed the Mr. D. Melvin and S. Koyiyumptewa to take this proposed AI/Resolution to the CRAT
- LC fully supports the reasons and concepts of AI/Resolution written in the Hopi Language

NEW BUSINESS:

- a. Joint W/EC & Land Commission meeting with Cibola Farmers and CRIT in Cibola– scheduled for March 3, 2023 (TA's processed– Land Commission confirm for travel to attend the meetings) Secretary Nutumya provided an itemized list for LC and WEC members of their information needed to acquire a Travel Authorization (TA). She also asked for names of those who were not planning on attending as soon as possible so she can stop request for TA and cancel lodging reservations.**
- b. Reschedule Annual meeting with CKP in Scottsdale – Land Commission Travel March 30, 2023 and meeting on March 31, 2023.**
- c. Inquiry from Michael Mullion on - Rental refund of lease paid to Hopi on Farm Lands – Dale Sinquah/Thayne Lowe/Fred Lomayesva**
- Mr. T. Lowe wrote email to Land/WEC requesting for refund to Michael Mullion for Farm Lease which he paid and Tribe has deposited his check.
 - Thayne and Fred have worked on a formula for repayment using water usage as primary factor.
 - Hopi terminated lease at Cibola: Mullion has paid lease for Jan-Mar
 - Refund will be a prorated based on water usage.
 - Mr. Mullion would like to discuss continuing a lease concerning a fallowing program offered by the USDA to preserve land for potential cotton farming
 - Rep. D. Sinquah pointed out this leads to the importance of meeting with CRIT to get informed by their Farm Manager. Hopi needs to be aware of the stipulations of fallowing programs offered by USDA.
 - Fred Lomayesva reminded WEC terms of the lease allow fair charge for use of water.
 - Rep. Rosa H. commented on the usefulness to inquire about USDA programs on fallowing and subsidy programs with CRIT.
 - Rep. Dale S. motioned to approve the OGC and outside Counsel to calculate lease and move forward and refund Mr. Mullion. Motion was seconded by Rep. Rosa H.

- The motion approved 4-0-0 Initial meeting on Feb 9, 2023 decision was to keep in contact with farmers at Cibola.
- Request for squaw dance from Marlene Thomas to be held on May 8th, 2023. Requesting for an acre. RU
- Discussion: OHL needs to survey area the requester wants before approving. Limitations/boundaries of new area need to be understood and stipulated to requester. Amount of green tree cutting is a concern. How will the windmill at requested area be protected? Also the access to area is a factor.
- Decision was made to inform MS Thomas to have dance on her Home site.

e. Ratify action taken by Land Commission on Feb 2nd to discontinue lease with the Cibola farmers.

- Rep. Dale S. motioned to ratify the actions taken by WEC and LC on Jan 5 and Feb 2.
 - Terminate the lease
 - Terminate water use, to Swan Farms and Red River farms

REPORTS:

Lt. Marcus Yoyetewa, Interim Oversight of HLES
Carrie Joseph – Director of DNR
Stewart Koyiyumptewa, Manager of CPO
Priscilla Pavatea – Manager of ORM:

- ORM April 3 hearing board going thru grazing permits to be before HTC by September.
 - BIA 2023-2025 Land Ops HPL contract approved.
 - Hearing board is having quorum issues discussion to have it open to interested people, discussion with OGC's office.
 - Cutting of fences ongoing no grass on NPL side, animals are being put on HPL side, with cold weather broken pipes have become an issue.
- Edison Tutsi, Manager of OHL:
- Green tree cutting around the Jeddito area
 - With weather conditions monitors are not going off road
 - Land assignments have slowed down mainly because paper work not complete.
 - Project review committee-March 2nd meeting at DAT's conference room. Discussion will be on financial guidelines will be coming before HTC.
- Darren Talayumptewa, Manager of WEMP:
- WEMP's Chart of accounts are in place. The amount of funds in account is not what was anticipated.
 - Because of lower than expected funds WEMP will not hiring most positions for 2023
 - Game biologist
 - wildlife tech (4)
 - forestry tech (2)
 - Wetlands Coordinator

HOPI TRIBAL COUNCIL— March 1, 2023 Agenda

X. UNFINISHED BUSINESS

- Discussion and possible action: Letter dated March 31, 2022 Re: Village of Shungopavi's request for information regarding land lease, including ownership of the property comprising the Hopi Cultural Center. Craig Andrews, Vice Chairman, The Hopi Tribe. **Tabled**
- Discussion and possible action: Letter dated by September 19, 2022 RE: Survey conducted by Hopi Elections Office from Dale Sinquah, Tribal Council Representative, First Mesa Consolidated Villages. **Tabled**
- Action Item #090-2022: Intergovernmental Agreement between the State of Arizona and the Hopi Tribe. Author Donovan Gomez, Transit Administrator, Hopi Senom Transit. **Tabled**
- Action Item #093-2022: To amend the Rules of Order for the Hopi Tribal Council to provide a streamlined process of the Tribal Council parliamentary procedures that will be followed during meetings of the Tribal Council. Author Marilyn Fredericks, Tribal Council Representative, Village of Bacavi. **Tabled **Time Certain, Wednesday, March 8, 2023 at 1pm**

XI. NEW BUSINESS

- Action Item #021-2023: Walpi Housing Management Agreement. Author Fred Lomayesva, General Counsel, Office of the General Counsel
- Action Item #026-2023: Approval of

the final draft of the "Hopi Reservation Forest Management Plan." Author Carl Seweyestewa, Forester, Wildlife & Ecosystems Management Program

- Action Item #028-2023: To amend the Procurement Policy to provide flexibility for the Hopi Tribe Pandemic Recovery Committee to utilize the American Rescue Plan Act Funds. Author Mark Talayumptewa, Chairman, Hopi Tribe Pandemic Recovery Committee
- Action Item #030-2023: The Hopi Tribe supports the protection of more than eight million acres of land managed by the Bureau of Land Management in the State of Utah as Wilderness through the passage of America's Red Rock Wilderness Act. Author Stewart B. Koyiyumptewa, Director, Hopi Cultural Preservation Office. ****Time Certain Tuesday, March 7, 2023 at 9a.m.**
- Action Item #031-2023: To approve Hopi Tribe Pandemic Recovery Committee Bylaws. Author Mark Talayumptewa, Author Mark Talayumptewa, Chairman, Hopi Tribe Pandemic Recovery Committee ****Time Certain Wednesday, March 8, 2023 at 9am**

Find out if you can get help with your internet service costs

If you or someone you know needs help paying for internet service, you may qualify for a **monthly discount on a new or existing internet service plan** through a government program called the Affordable Connectivity Program (ACP).

You may also qualify for a one-time device discount of up to \$100, to buy a laptop, desktop computer, or tablet from participating providers.

Do I Qualify?

To apply, visit AffordableConnectivity.gov or call 1-877-384-2575 to request an application. Once your application is approved, you can contact a **participating internet service provider** to start receiving your monthly discount. Only one monthly service discount and one device discount is allowed per household.

Research suggests increased broadband Internet access is associated with improved health outcomes. Broadband makes it easier for people to take advantage of information on [Medicare.gov](https://www.Medicare.gov), like comparing the quality of nursing homes and hospitals, or finding the health plan that's best for you.

March 6, 2023

To: Parents/Guardians of Hopi High School Students

From: Alban Naha, Interim Superintendent/Junior High School Principal *Alban Naha*

Subject: Addressing Recent Inclement Weather and School Delays/Closures

We have had an exciting winter season! The snow has been a welcome necessity for our community. The purpose of this communication is to provide students and families of Hopi Jr./Sr. High School (HJSHS) with information regarding changes to school schedules and plans to make-up missed instructional time.

Every school year, HJSHS develops a school calendar to meet the Code of Federal Regulations (CFR). It requires schools provide a minimum number of instructional hours in order to maintain a full-time certification. For Grades 9-12, the minimum number of hours to meet the CFR is 970. For junior high it is 900 hours.

Even with the winter weather delays and closures, the school is still above the set criteria of CFR hours. However, the school has lost approximately 30 instructional hours from our original school year calendar.

In order to gain back some of the lost instructional time, the HJSHS Administration has decided to extend some upcoming half days and take advantage of the Emergency Make Up Day in April. The following dates are now changed:

- Thursday, March 9, 2023 – Designated Half-Day Now Changed to Full Day of Instruction.
- Wednesday, March 22, 2023 - Designated Half-Day Now Changed to Full Day of Instruction.
- Friday, April 7, 2023 – Emergency Make Up Day Utilized. Full Day of Instruction.
- Wednesday, April 12, 2023 - Designated Half-Day Now Changed to Full Day of Instruction.
- Wednesday, April 26, 2023 - Designated Half-Day Now Changed to Full Day of Instruction.

In the event of further cancellations beyond this point on the school year, HJSHS will evaluate converting other designated half days to full days. If deemed necessary, HJSHS could extend the school year further into May. That step would only occur if we experience several more school cancellations.

If additional changes or modifications take place, HJSHS will provide further updates as needed. We appreciate your continued support.

Yearbook Challenge IS ON!!!

- Yearbooks will be free to all students who are on point with attendance, coming to school daily.
- Minimum of a 90% attendance rate earns you a free yearbook.
- Attendance time frame will be 2/27/23-5/19/23 or (55 days).
- Attendance makes a difference. Make it to school!!

attendance MATTERS

HJSHS Spring Break, March 13 - March 17

HJSHS Spring Break begins Monday, March 13 to Friday, March 17. There will be no school throughout the week for students and academic staff. School resumes Monday, March 20. Enjoy your Spring Break and be safe!

The HJSHS offices will be open throughout Spring Break. Office staff availability will vary and very limited the 2nd half of the week because several individuals will be away for a board work session.

SOBER LIVING HOME SCAM TARGETING NATIVE AMERICANS

Be extremely cautious about getting into vehicles with individuals you do not know! Ask questions and obtain as many details as possible, including the company name and address, name of individual, facility address, whether the facility is licensed, vehicle license plate number (if applicable), and date and location of contact.

MORE INFO

If you have knowledge that someone has been targeted, please contact: Hopi Law Enforcement Services: 928-734-7340 (office) or 928-497-1493 (cell) or Phoenix FBI at 623-466-1999.

Recognize Four Basic Signs of a Social Security Scam

1. Scammers **pretend** to be a familiar organization or agency, like the Social Security Administration. They may email attachments with official-looking logos, seals, signatures, or pictures of employee credentials.
2. Scammers mention a **problem** or a prize. They may say your Social Security number was involved in a crime or ask for personal information to process a benefit increase.
3. Scammers **pressure** you to act immediately. They may threaten you with arrest or legal action.
4. Scammers tell you to **pay** using a gift card, prepaid debit card, cryptocurrency, wire or money transfer, or by mailing cash. They may also tell you to transfer your money to a "safe" account.

Ignore scammers and report criminal behavior. Report Social Security-related scams to the SSA Office of the Inspector General (OIG).

Visit www.ssa.gov/scam for more information and follow SSA OIG on [Facebook](#), [Twitter](#), and [LinkedIn](#) to stay up to date on the latest scam tactics. Repost #SlamtheScam information on social media to keep your friends and family safe.

Daylight Saving Time Here's why Arizona doesn't adjust its clocks

As every other U.S. state springs forward with the start of daylight saving time in March 2023, Hawaii and most of Arizona will remain havens where residents don't have to change the clocks on every appliance, vehicle and electronic device they own.

Arizona, with the exception of the Navajo Nation, which spans Arizona, Utah and New Mexico, has not observed DST for the last 50 years, after decades of going on and off daylight-saving measures implemented during wars.

According to the Pima County Public Library, "Arizona ... went on Daylight Saving Time on April 30, 1967, for the first time since World War II. Daylight Saving Time was rejected by the Arizona legislature in 1968."

When does daylight saving time 2023 start?

At 2 a.m. Sunday, March 12, 2023, most of the U.S. will move forward one hour to 3 a.m. Most of Arizona, as well as Hawaii, will remain as they were.

When does daylight saving time 2023 end?

Daylight saving time ends at 2 a.m. on the first Sunday of November each year. Clocks will fall back one hour to 1 a.m. In 2023, that is Sunday, Nov. 5

The Village Crier is published on the 2nd and 4th Tuesday of the month. All submissions may be sent to Editor: Lnahsonhoya@gmail.com

Hopi Jr. High School Varsity Boys coached by Lowell Talashoma

Hopi Junior High School Bruin Varsity Boys and Girls Basketball Teams End their Season at the NAIC Tournament in Monument Valley

Louella N. Furcap, the Village Crier Editor
First Mesa Consolidated Villages

The Northern Arizona Interscholastic Conference (NAIC) Jr. High Athletic League ended their basketball season with a Championship Tournament at Monument Valley High School on Saturday, March 4, 2023.

The Hopi Jr. High Varsity Boys' Basketball Team, coached by Lowell Talashoma (R-top row), lost a hard fought, defensive game in the semifinal round to Ganado Middle School with a score of 27-15.

The Jr. High School Varsity Girls' Basketball Team, coached by Brandon Nahsonhoya (L-top row) and Jenny N (R-top row), also lost a hard fought game to the Tuba City Boarding School Thunderbirds, in the second round of the tournament, with a score of 38-32.

This concluded the Hopi Jr. High Varsity Boys and Girls season. It was fun watching and cheering for all our Hopi basketball teams throughout the basketball season. We look forward to another great and exciting basketball season, next year.

GO BRUINS!!

Hopi Jr. High School Varsity Girls Basketball Team. Coaches: Brandon Nahsonhoya and Jenny N
