Winslow High School Coach Don Petranovich Dead at Age 81

Special Contribution

coach Don Petranovich, 81, who led the school to according to the Arizona Interscholastic Association eight state championships, died on Wed., June 8.

Erick Petranovich, Don's son, said his father was suffering from dementia. He broke his hip last year, and had hip replacement surgery in April. He was in hospice care, Erick said, adding his father died peacefully and wasn't in pain.

"Since he passed five hours ago, I've had, I don't know how many calls from former players, referees, coaches," Erick said. "He had a great influence on everybody.

"His girls were his daughters. He would do anything for any of them. He was just a great man."

Petranovich retired from coaching 12 years ago with 780 all-time wins in 33 years. At the time, it was the most in state history. That record was broken by former Gilbert Highland coach Miner Web-

Former Winslow High School girls basketball ster, who ended his coaching career with 816 wins,

Current Chandler Seton Catholic coach Karen Self ranks third, five games behind Petranovich, for most wins in girls basketball state history with 775.

The Winslow gym is named after Petranovich, who, in 2009, entered the National High School Athletic Association's Hall of Fame. He was the national Coach of the Year in 2011.

"Don was a great coach and an amazing strategist," said Self, who also has won eight state titles in 30 years. "There were many times after losing to him in the playoffs that I would just say, 'Great game and thanks for the lesson.'

"He was always available to talk shop with me as a young coach. He definitely set the standard for girls basketball in Arizona."

Hopi Cancer Support Services Receives Funding to Continue Work The Centers for Disease Control and Prevention approves five-year grant Kykotsmovi, Arizona

FOR IMMEDIATE RELEASE- June 7, 2022

Contact: Kellen Polingyumptewa, ACSM-PT Program Coordinator Hopi Women's Health Program (HWHP) HOPI Cancer Support Services (HCSS) Phone: (928) 734-1150 Email: KPolingyumptewa@hopi.nsn.us

This week the HOPI Cancer Support Services was notified that their application for funding from the Centers for Disease Control and Prevention (CDC) was granted. Agencies from across the country submitted their requests in January of this year. The funding will provide \$3 Million over the span of five years beginning in July.

"We have served the Hopi community for over 25 years and now we have the opportunity to continue for 5 more years. This is a momentous occasion for our program and for the entire tribe," said Kellen Polingyumptewa, Hopi Women's Health Program Coordinator. "During the last few years, we have seen decreased health care providers, unexpected COVID spikes resulting in safety mitigation strategies that hinder work productivity, and network and broadband issues with employees forced to work from home. However, we look forward to continuing and improving our services with the same energy and momentum as before the COVID Pandemic."

The monies from the CDC's National Breast and Cervical Cancer Early Detection Program will be used to provide women with low income who are uninsured and underinsured access to screening/diagnostic services for breast and cervical cancer. It will allow the Hopi Women's Health Program to provide patient navigation/case management, transportation to/from appointments, and appointment scheduling/reminders. Additionally, it will cover screening costs for enrolled members at two partnering health systems, Hopi Health Care Center and Tuba City Regional Health Care Corporation. The program will also provide one-on-one health education, mobile on-site mammography units to serve the local Hopi community and navigation to cancer treatment centers for enrolled program members.
