Winslow Christmas Parade Set for November 18

WINSLOW, Ariz. – The City of Winslow and the Winslow Chamber of Commerce are hosting the 76th annual Christmas parade on Nov. 18.

This year's theme is "An Indigenous Christmas."

"We are excited about this year's theme, as it honors the communities and people who come out and support our parade every year, by sharing their beautiful culture and traditions," the city said in a statement.

The parade is one of the longest running parades in Northern Arizona.

For more information on being a vendor or to participate, contact Bob Hall or Angela Gonzales Moser at (928) 289-2434.

FMCV Holiday Office Closures

The First Mesa Consolidated Villages' Administration office will be closed on November 10 in observance of Veterans Day (Nov. 11).

The Office will also be closed on Nov. 23 for the Thanksgiving Holiday.

During these days, you may call 928-737-2670 and leave a message, stating the nature of your call. Someone will return your call upon receipt

Goals for the First Mesa Proposed Trail Restoration and Maintenance Project

By: Wilber Kaye, Staff Assistant First Mesa Consolidated Villages

First Mesa Consolidated Villages has developed goals for the proposed Trail Restoration and Maintenance Project. These goals include both safety and religious aspects and involves efforts to enhance the trail's condition while also respecting its religious or cultural significance.

Safety Enhancements:

- Regular inspections should be conducted to identify safety hazards such as loose rocks, uneven terrain, or erosion. Address these issues promptly to prevent accidents.
- Install safety features like handrails, guardrails, and appropriate signage to warn users of potential dangers or to guide them safely through challenging sections of the trail.
- To remain in compliance with the First Mesa Community Emergency Response Plan to provide safe evacuation routes in case of landslides or rockfalls.

Cultural and Religious Sensitivity:

- Collaborate with religious or cultural authorities to understand the significance of the trail and any specific guidelines or practices that must be respected during restoration and maintenance.
- Ensure that all restoration work is carried out with utmost respect for the religious or cultural context. This might involve avoiding certain areas or using specific construction techniques.

Preservation of Natural and Cultural Features:

• Minimize the impact of restoration work on the natural environment, especially in ecologically sensitive areas. Use sustainable building materials and methods.

 Preserve and protect any cultural or religious artifacts, symbols, or structures along the trail, seeking guidance from relevant authorities.

Trail Markers and Signage:

 Clearly mark the trail, providing directions and information that help hikers stay on the designated path while respecting the site's sacredness.

Collaboration and Community Involvement:

- Engage with religious and cultural leaders, as well as relevant authorities, to gather their input, insights, and support for the restoration and maintenance project.
- Cultivate a sense of stewardship within the community to ensure the long-term preservation of the trails.

Seasonal Maintenance and Sensitivity:

Adjust maintenance schedules according to the seasons, considering weather conditions, pedestrian traffic, and religious events that may impact the trail's use.

Training and Education:

Provide training for trail restoration and maintenance on cultural sensitivity, religious respect, and the importance of preserving natural and cultural heritage.

Balancing safety with respect for religious and cultural significance is essential in trail restoration and maintenance for these purposes. The collaboration of the local community and a deep understanding of First Mesa's unique landscape are key to the success of this project.

Hopi Tribe Water/Energy Committee & Land Commission Report

By: Dale Sinquah, Hopi Tribal Council Representing First Mesa Consolidated Villages

Water Energy Committee (WEC) Meeting—WEC canceled its October 18, 2023 due to intense Little Colorado River settlement negotiations with The Navajo Nation and All State parties settlement meeting being initiated by the State.

Fiber to Premise (FTP) - Hylan West Inc. from Phoenix, AZ continues to install fiber optic main lines implementing a 5.8 million dollar USDA grant to Hopi Telecommunications Inc. (HTI). Diversified Inc. is schedule to start in January 2024 to connect fiber to premises from the main lines laid outby Hylan West.

The Right of Way (ROW) across Navajo Nation for fiber optic cable to Moencopi from Hotevilla continues to be addressed by HTI.

The state tribal liaison, MS. Candace Hamana will assist HTI in producing a 5 year plan which will be incorporated into the state's plan. HTI plans to seek Broadband Equity, Access, and Deployment (BEAD) Program funds to supplement their C loan and NITA Grant where needed.

Calls to Hopi Law Enforcement Services—Since the reversal of the protocol where call is routed to HTI as the primary, the problem has improved. The team will continue to research this issue since 911 services are not the only calls with this problem.

Little Colorado River (LCR) Hopi Water Rights Negotiation Team (HWRNT) - The Navajo Water Negotiation Legal Team and Hopi Water Negotiation Legal Team have ramped up their meeting schedule since all parties state meeting in Little Colorado River Adjudication/Settlement which convened on Oct 23, 2023 in Phoenix, Az.

The Hopi Water Rights Negotiation Team attended an in person negotiation session in Phoenix with the Navajo Nation Negotiation Team on Oct. 18. This session was to identify agreements in principles prior to the all parties state meeting on Oct. 23.

HWRNT has scheduled weekly updates from our legal and technical team on the progress of the state all party meetings. Other meetings may occur on an as needed basis. The Hopi Tribe is fully engaged in LCR settlement talks. WEC and Hopi's legal team plans will present an update to HTC when there is enough agreement and substance.

Water & Tribes Initiative/Colorado River Basin Presentation to Hopi Tribal Council September 28, 2023

Water & Tribes Initiative (WTI) will report via zoom to HTC on Nov. 6 pending approval of agenda. WTI will collaborate with Hopi Water Resource Department (HWRD) Manager Dr. Sarah Abney on their efforts.

On Oct 30 WTI, HWRD, and WEC spoke in a zoom meeting and pledged to work together on the project and will emphasize tribal and

HWRD eternal Capacity building efforts. WTI and WEC invited HWRD to attend and comment on the Nov 6, presentation to HTC.

New Land Wells Report—by Christopher P. Wolf, PG Principal Geochemist Daniel B. Stephens & Associates, T. Neil Blandford, PG Principal Hydrologist/Senior Vice President (DBS&A)

DBS&A Geologist Chris Wolf oversees the New Land Wells drilling project. Wolf informed Hopi WEC Tuesday morning Oct 31, in a Zoom call that Blue Bird Well is in its final stages and should be complete by end of the week Oct 30 – Nov 4, 2023. The well is being cleaned and productivity and quality will be tested.

DBS&A provided costs on the overall new land well project and WEC directed DBS&A to move to and work on Sun Shine well following the completion of Blue Bird Well.

Hopi Comments on the Development of Post-2026 Operational Guidelines and Strategies for Lake Powell and Lake Mead

Hopi has submitted comments to the "Notice of Intent to Prepare an Environmental Impact Statement and Notice to Solicit Comments and Hold Public Scoping Meetings on the Development of Post 2026 Operational Guidelines and Strategies for Lake Powell and Lake Mead." The following are several and not all of the comments submitted by the Hopi Tribe:

Under "<u>Modeling and Demand Assumptions</u>" - Hopi comment ed that the US Government trust responsibilities should account for undeveloped and unsettled Hopi water rights.

Under the heading of "<u>Tribal Consultations</u>" - Hopi commented that all alternatives which may possibly impact Hopi's trust assets, resources, or interest the Bureau of Reclamations is obligated to analyze and disclose to the Hopi Tribe in a government to government meeting. The comments were signed by the Hopi Tribal Chairman Timothy L. Nuvangyaoma.

Colorado River Basin Tribes (CRBT)

WEC is working with Colorado River Basin Tribes (CRBT) to positively affect the Post 2026 operation guidelines. CRBT has a weekly Monday morning call which Representative D. Sinquah and Thayne Lowe participate in. CRBT is working on producing "Elements or Principles for Any/All Alternatives – NEPA Process for Post-2026 Management Framework)

In this forum there is a discussion on the difference of Tribal water rights along with unused/undeveloped Tribal water rights and how they factor in.

Other issues are future opportunities for Tribes to develop and use their water rights. CRBT also is contemplating how cuts are applied to Tribal water rights. They are also searching for a structure for tribal participation in developing and implementing Colorado River policy.

Hopi Elections Board& Elections Office Vacancies

The Hopi Tribal Council announces vacancies for the following:

- Three (3) Election Board members and two (2) board member alternates
- A Tribal Registrar

Interested individuals must submit a Letter of Interest to the Office of Tribal Secretary, for information on the qualifications, terms and duties. Feel free to contact the Office of Tribal Secretary at 928 -734-3132.

These vacancies will remain advertised until filled. Thank you for your interest.

Freezing Temperatures are Here!!

To prevent water breaks, you are encouraged to cover your water/sewer pipes to avoid freezing.

NOTICE For Your Safety

The FMCV Leadership encourages everyone to be cautious and practice safety protocols as you gather and congregate with families during the holidays. A Report shows COVID-19 is on the rise again on the Hopi Reservation. We must not let down our guards; especially, during these times of gatherings. Remain vigilant and wear a mask if you prefer.

Councilman Sinquah Report from P2

Land Commission (LC) - Land Commission conducted its October monthly meeting on Oct 26. A resolution on the Three Canyon Ranch loan is due to Land Commission from Office of General Council for review and presented to Hopi Tribal Council to settle the loan.

Because of the trash debris at the solid waste landfill site and our inability to meet with the director, the Land Commission plans to schedule a site visit to view the area and speak with the manager.

LC and the local Non-Governmental Organizations are working on resolution language regarding the Federal Energy Regulatory Commission (FERC) rulemaking petition to consult with tribes on proposed projects on tribal lands. The proposed resolution will be amended and presented to CPO and OCG for review then to Council as soon as possible.

The Land Commission is seeking funds to pay membership fees for Coalition of Large Tribes (COLT) Voting member \$5,000 or Associate member \$2,500. COLT promotes the

sovereign rights of member tribes and COLT members consist of large Indian tribes throughout Indian Country. The coalition serves as an advocacy group for issues facing American Indian tribes with land bases exceeding 100,000 acres. Hopi currently has a trust land base of approximately 1,862,731 acres.

COLT advocates for the exercise of tribal sovereignty and jurisdiction to the fullest extent including the sovereign right to develop natural resources, pursue agricultural efforts and develop and enhance Reservation infrastructure such as transportation and water infrastructure.

An Indigenous Christmas Winslow's 76th Annual Christmas Parade

Saturday November 18th 2023

Winslow's Annual Christmas Parade is just around the corner. This year's parade will take place on Saturday the 18th of November, and our theme for this year is "An Indeginious Christmas." It is our sincerest hope that this year's parade will outshine all the previous Christmas Parades. In the spirit of the Season we are counting on you to invoke the joy and happiness that everyone is wishing for...

Keep this candle
burning in memory of
our loved ones in
Heaven This
Thanksgiving
Always in my heart
never forgotten!

Important Information About Your Drinking Water

The Polacca water system recently violated the drinking water standard for arsenic. Although this is not an emergency, as our customers, you have a right to know happened, what you should do, and what we are doing to correct this situation.

We routinely monitor for the presence of drinking water contaminants. Testing results we received show that our system exceeds the standard or maximum contaminant level (MCL), for arsenic. The standard for arsenic is 0.010 milligrams per liter (mg/L) or 10 parts per billion (ppb). Arsenic in the Polacca water system was found at 0.019 mg/L-West Well #8 and 0.020 mg//L-East Well#5 for the month of September 2023.

Arsenic in the drinking water can come from the erosion of natural deposits, runoff from orchards, or glass and electronic production waste.

WHAT SHOUD I DO?

You do not need to use an alternative water supply, such as bottled water. If you have specific health concerns, please consult your local health provider.

WHAT DOES THIS MEAN?

This is not an immediate risk. If had been, you would have been notified immediately. Some people who drink water containing arsenic in excess of the MCL over many years could experience skin damage or problems with their circulatory system, and may have an increased risk of getting cancer.

WHAT IS BEING DONE?

Polacca water system will be tied into the Hopi Arsenic Mitigation Project (HAMP). The source wells for the HAMP have, and are expected to have, arsenic levels below 10ppb. Construction of the first phase of the HAMP, which will tie in the Polacca water system, is presently expected to be completed by the calendar year 2015. Once the Polacca water system is tied into HAMP, the arsenic exceedance should be resolved.

CONTACT INFORMATION

For information, please contact: First Mesa Consolidated Villages -Water Program P.O. Box 260

Polacca, Arizona 86042 Phone: (928) 737.2670
